Mr. Dave Marston, Legislative Counsel to
Senator Richard Schweiker
U.S.Senate
Wash., D.C. 20510

Dear Dave, 10/20

An old UPI hand sent me this Times story with the enclosed note from which I've removed the personal. In general he perceives what I fear.

I know Waldron. I am certain there was more to this story and that it was edited out. The national desks of all the major papers are hungup on this subject. If over nothing else, their own pasts. Thus to them the McMillans, who have yet to produce anything that would not shame the elf-man -both has books contracted, neither has appeared - are quotable experts.

The major media have been this way.

While they don't have to be fed cues, I hate to see them helped this way.

Sincerely,

Harold Weisberg
